presented in a non-chronological fashion. Harper's book is basically equivalent to the Yoeman red book (the Bible for US coins). So, buy this and get a twofer for a better price. As to Mexican coins, I don't collect them, but the organization appears to be fine. 0 of 0 people found the following review helpful. Very Complete Book By Javy Alvarez Bought this as a gift for a collector and he was extremely happy with it and that's all that matters to me. He said the book is very complete and has everything one could want from a collector's pricing book. 0 of 0 people found the following review helpful. Good Reference By Andy Good reference book for Mexican and Canadian coins. Reasonably priced.
