**Chambers (Ed.) : Chambers Murray Latin-English Dictionary** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chambers Murray Latin-English Dictionary:

0 of 0 people found the following review helpful. Relatively inexpensive dictionary with great word coverage compared to other inexpensive dictionaries By Customer This dictionary has more words than any dictionary in its price

range. The print is a bit too small for my 63 year old eyes, and that is why I generally refer to my Oxford latin desk (or pocket) dictionary with their larger print first and then go my chambers-murray (CM) with magnifiers in hand if the former fails me. The CM is reasonably priced for what you get and has a fairly large number of words. This review is about the paperback version, not the hardcover one. 0 of 0 people found the following review helpful. the paperback is not easy to use. By gardenert the paperback is not easy to use, especially for anyone with vision problems or "mature" eyes. the print is Really small so you may need a magnifier. it's also very thick. so if it's in good condition - with tight pages - the reader will have to strongly press it apart and maybe weight down the pages. the good points are that the paperback is affordable and portable. 30 of 31 people found the following review helpful. Excellent, affordable, accurate reference for all. By A Customer This dictionary is the very best dictionary in its class in terms of ability to concisely inform the reader of how a word was used and which authors used it. It is useful to all groups of Latin followers as a result of this. Personally, I have used this book for the last two years for Prose Composition (translation from Eng to Latin) and it has been faultless, solving many classroom arguments. If you're looking for a dictionary and don't want to spend the earth, buy this dictionary.

First published in 1933, the Chambers Murray Latin-English Dictionary is the standard reference text for all advanced students of Latin.

From the Back Cover The Chambers Murray Latin-English Dictionary is widely regarded as the best dictionary of its kind. About the Author No Bio No Bio
