Valuable LessonsBy sanThis book is a tool for guided self-evaluation. A lesson in how well you know yourself, your goals and the expectations others will have of you. It's about awareness, preparation, perspectives and process. It offers guidance on

focus, attitude, ability, shortcomings and strategic planning. This book gives you an opportunity to reflect as you learn, with space for journaling, resulting in a hard copy to review later. Whether that might be in a week, a month or years from now. Being a part of the "team" can apply to work, school and life. Thought provoking.

This is a book that all culinary competitors need to read, and that all chef/instructors and coaches have been waiting for. Learn the concepts that are needed for team success. Read, work together, and get the gold!!!! This is a revolutionary book that will change the way the American Culinary Federation Teams compete and win the gold!
