**Khara L. Pence Turnbull, Laura M. Justice : Language Development From Theory to Practice (3rd Edition)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Language  
Development From Theory to Practice (3rd Edition):

2 of 2 people found the following review helpful. Formulaic and boringBy L. WassermannThe authors chose to write  
this book in a boring and repetitive modular format, dividing language development into neat little categories and then  
reviewing each category in the same boring fashion for each age range. Reading this book was actually painful.Aside  
from the content, the print quality was not good, the typeface was not sharp and crisp, and there was bleed from the  
opposite side. I have 20/20 vision, but every time I read this text I felt like I need glasses. Inexcusably bad print quality  
given the price of this book. Not recommended.0 of 0 people found the following review helpful. helping me get
