Mark Hatala : Learn APA Style: Writing in Psychology and the Social Sciences before purchasing it in order to gage whether or not it would be worth my time, and all praised Learn APA Style: Writing in Psychology and the Social Sciences:

1 of 1 people found the following review helpful. Easy to follow, very helpful!By Marissa D.As an undergraduate psychology major I find this book very helpful. I sometimes struggle to properly cite my sources in APA style, but this book has examples for all kinds of sources and in-text citations that I can refer back to whenever I need help. Learn

APA Style also contains a section on topic ideas, which includes lists of several good sources to use when researching each topic. As a lazy college student, I have used these lists a couple of times already in the initial stages of research, as well as to find several other quality journal articles. 2 of 2 people found the following review helpful. Excellent Guide to APA Style! By Chandrika Collins An excellent resource! The best part is that it is a straightforward guide to APA style. The quizzes exercises when paired with the videos (on YouTube) really help! Its reader-friendly layout allows for grasping the concepts quickly. I highly recommend. 2 of 2 people found the following review helpful. Learn APA Style By Kristin Hafen As a student I've purchased several books on APA style. This one is the best by far! There are loads of helpful examples and a lot of humor mixed in to keep things fun.

Learn APA Style: Writing in Psychology and the Social Sciences features: Test your knowledge quizzes (with answers) for each section of the APA manual In Depth exercises on clear and concise writing, non-sexist and non-biased writing, abbreviations, punctuation, crediting sources, and author names Twenty topics in psychology with corresponding empirical studies, books, chapters in edited books, literature reviews, meta-analyses, and case study references APA style in a nutshell - distilling the APA rules to a cheat sheet of literary style Sample student research paper with comments and corrections Sample journal article submission with comments and corrections Explanation of different types of sources (primary, secondary) with examples Explanation of different types of research articles with examples Full coverage and explanation of the Publication Manual of the American Psychological Association

About the Author Mark Hatala has been teaching writing in psychology at the college level for over 25 years. He has a number of journal publications and regularly presents with his research team at regional and national conferences. In addition to being a college professor, Dr. Hatala has been a machinist, an opera usher, a bus driver, a fry cook, the lead singer in a punk band, a market researcher, a financial planner, and a baseball umpire. He is an avid backgammon and cribbage player and enjoys time spent with his three children.
