Clifford Geertz : Local Knowledge: Further Essays In Interpretive Anthropology (Basic Books Classics) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Local Knowledge: Further Essays In Interpretive Anthropology (Basic Books Classics):

13 of 22 people found the following review helpful. Still more interpretive tools  
By D. Carlton Hawley Jr. Cultural scholarship has grown to depend upon people like Clifford Geertz for the conceptual tools required for such studies. Representations, events, societies, individuals, institutions, economies, material practices, et al, interact with such a degree of complexity that conceptual tools and methods, such as those discussed in these essays, allow anyone interested in exploring the meaning of culture the opportunity to ride the avalanche of symbols which both clarify and confuse that meaning.  
1 of 6 people found the following review helpful. Must Read for Anthropology  
By Kris Noel It's difficult to understand, but you will learn more about anthropology than you did before. I had to read a lot of Geertz as an anthropology student, so you sort of get used to it. This was something I didn't necessarily mind reading or keeping for reference.  
-Kris Noel  
Lionhead (Volume 1) The Serenity Compound  
6 of 41 people found the following review helpful. Dense description  
By A Customer This is composed of short essays after he published the excellent masterpiece, "The interpretation of culture". It is not easy reading because of his writing style. However, it makes more sense to understand what is Anthropology and how understand culture.

In essays covering everything from art and common sense to charisma and constructions of the self, the eminent cultural anthropologist and author of *The Interpretation of Cultures* deepens our understanding of human societies through the intimacies of "local knowledge." A companion volume to *The Interpretation of Cultures*, this book continues Geertz's exploration of the meaning of culture and the importance of shared cultural symbolism. With a new introduction by the author.

From the Back Cover  
The noted cultural anthropologist and author of 'The Interpretation of Cultures' deepens our understanding of human societies through the intimacies of 'local knowledge.'  
About the Author  
Clifford Geertz, the author of many books, is Harold F. Linder Professor of Social Science at the Institute for Advanced Study, Princeton, New Jersey.
