Charles Madderom : Los Angeles City Fire Department Photo Archive (Photo Archives) before purchasing it in order to gage whether or not it would be worth my time, and all praised Los Angeles City Fire Department Photo Archive (Photo Archives):

0 of 0 people found the following review helpful. Great BookBy BrianLos Angeles City Fire Department one of the best fire departments in the country. The book shows the equipment utilized by the highly trained and professional firefighters. The book is great for anyone with a interest in the. department or the equipment.3 of 3 people found the following review helpful. Fire Apparatus History from Los Angeles CityBy Robert P. VaccaroAn excellent photographic history of fire apparatus that served The Los Angeles City Fire Department from 1953 to 1999.Chuck Madderom has done a great job in photographing some of LA City's most memorable pieces of equipment. The photos are clear and the captions concise. It would be a great addition to any fire buff's bookshelf. Especially those with a sincere interest in fire apparatus from the City of Angels.

Readers are treated to an in-depth look at the equipment that has made the Los Angeles Fire Department so unique from 1954 to present. Clear, crisp photography depicts fire apparatus of all types and manufacturers, with special emphasis on Crown, one of the LAFD's largest suppliers over the years. Included are urban and wildland vehicles, pumpers, hose wagons, aerials, brush equipment, squads, and airport rigs. Captions contain complete information on each apparatus: number purchased, capacity, pump type, and more.
