Her formula for creating a story seems to duplicate itself, with the attractive THIN women that are unraveling some type of mystery in her novels. But, still her novels are so very addictive and very fun to read at any time of the day.Ok, so after reading the synopsis of this novel I had to buy it! However, I got lost in this book because of all the characters at the beginning! However, I forced myself to continue reading and it got a little easier but I still had to struggle getting through parts of the novel that didn't interest me and I had to speed read past at least 40% of the book.The novel was basically about two young women who are doing a study of why people use personal ads to find love. However, one of the ladies is found dead.I also noticed that MHC has a way of describing a character and making this sound aged, even though she clearly states that both main characters are in their twenties but have the style or mannerisms of a much older woman.This was not one of my favorite novels by MHC but that doesn't make me less of a fan.0 of 0 people found the following review helpful. Good old Mary Higgin ClarkBy kinseyWanted to reread this since I'd liked it so much as a teenage, still a very good read, typical romance mixed with a murder mystery.0 of 0 people found the following review helpful. Five StarsBy BeatriceExcellent and extremely suspenseful until l the end.

In the major new novel by America's #1 bestselling Queen of Romantic Suspense, a young woman seeks romance

through the "personals" columns only to encounter a killer who selects his victims the same way. When her closest friend seeks to unravel the mystery of her disappearance, she becomes the killer's next prey.

From Publishers Weekly Darcy Scott, the plucky heroine of Clark's disappointing latest suspense novel, is a promising young decorator whose best friend, Erin Kelley, has disappeared. At Darcy's behest, Erin had agreed to participate in research for a mutual friend's documentary on personal ads. When her body is found on an abandoned Manhattan pier, she is wearing two different shoes--her own boot and a high-heeled dancing slipper. Once the investigation into her death begins, two facts stand out: first, that this is the work of a serial killer whose MO includes adorning the victim with a dancing shoe, and second, that Erin met her killer through the personals. Guilt-ridden, Darcy sets out to meet the men Erin dated, hoping to find the killer herself. A hazardous pursuit, to say the least, but one which might thrill Clark fans, so great is the potential for terror as unwitting heroine stalks madman. Unfortunately, too much is revealed too soon and the reader, generally one step ahead of Darcy, is more frustrated than frightened. A surfeit of insignificant minor characters and one too many red herrings make the novel's sleight-of-hand ending seem very forced indeed. Literary Guild selection. Copyright 1991 Reed Business Information, Inc. From School Library Journal YA-- Darcy Scott and Erin Kelley, best friends since college, decide to help Nona Roberts with her research for a television documentary dealing with the types of people who place and answer personal ads. It starts out as a lark, but it turns to tragedy as Erin is found murdered after one of her dates. When her body is discovered, there is a clue that connects her death to those of seven other women in the New York area. In an attempt to find her friend's murderer, Darcy sets out to date the men Erin met through the personals. One of them could be the killer--but which one? Clark weaves a terrifying tale of life in the '90s that is sure to draw YAs into its web of suspense. Engrossing, even for reluctant readers. --Roberta Lisker, W. T. Woodson High School, Fairfax, Copyright 1991 Reed Business Information, Inc. "Brilliant, nail-biting...Original, fast-paced and absolutely unputdownable" * New Woman * "The throat-clutching denouement is pure Clark - inevitable, horrible and, ultimately, irresistible" * People * "Oozes tension from the very first page.
