Charley Hogwood : MAGS: The People Part of Prepping: How to Plan, Build, and Organize a Mutual Assistance Group in a Survival Situation before purchasing it in order to gauge whether or not it would be worth my time, and all praised MAGS: The People Part of Prepping: How to Plan, Build, and Organize a Mutual Assistance Group in a Survival Situation:

1 of 1 people found the following review helpful. Another one for the reference library
By G. Southerland
This book is going to be kept handy for quick reference along with *How to Survive the End of the World as We Know It* by James Wesley Rawles and *Prepping for a Suburban or Rural Community* by Michael Mabee.
Update: I would also like to add one more book to the required book list for beginning preppers, *The Prepper's Workbook* by Scott B. Williams and Scott Finazzo, which is more of a companion to Rawles' book above in that it will help you organize, track and build your preparations in a very fluid manner.
Oh, and thanks Charlie for throwing that autograph on the book for me. Now I have a good reason to not loan it out any more.
0 of 0 people found the following review helpful. Real world peace-of-mind preparation book of knowledge
By stuart kaplan
I am currently an Eye Doctor and I am prior US Army Combat Infantry. This book reads very fast and keeps your attention. Lots of information without being overly technical; any technical information is well explained. Well organized format. Good background information. This book can be used in any situation from day-to-day running a business to the most extreme end-of-world scenario. I would recommend this book to the novice looking to having a good starting point to the professional that wants to really expand their working knowledge. This is not a doom and gloom book, this is real world peace-of-mind book of hope and understanding. Thank you to the author.
0 of 0 people found the following review helpful. Good resource.
By Douglas L. Hemmingway
I am still reading, but I find what I've read to date very helpful.

There's a new version of this book with an updated title! We've re-released it as "*The Survival Group Handbook: How to Plan, Organize and Lead People for a Short or Long Term Survival Situation*", available here: www.bit.ly/SGhandbook" Who will be there to help you when the lights go out? MAGS is a guide designed to walk you through all the steps required to safely and securely find other people just like you who realize that going it alone in a dark world is not an option. This guide is an instruction manual for the solo survivor and a reference textbook for the established group, regardless of size. By employing the hard learned lessons carefully researched from active groups, and applying sociology, history, law and threat analysis, the survivor will understand what to look for in a group, how to build one from scratch, how to fix one that has become dysfunctional and where to put it in a hurry. If you want to put a razors edge on your team, understand group dynamics, conflict analysis and be able to successfully operate under a multitude of conditions, this book holds the keys to your success.
