**Valerie Malhotra Bentz, Jeremy J. Shapiro : Mindful Inquiry in Social Research** before purchasing it in order to  
gauge whether or not it would be worth my time, and all praised Mindful Inquiry in Social Research:

This innovative introduction to research in the social sciences guides students and new researchers through the maze

of research traditions, cultures of inquiry and epistemological frameworks. It introduces the underlying logic of ten cultures of inquiry: ethnography; quantitative behavioral science; phenomenology; action research; hermeneutics; evaluation research; feminist research; critical social science; historical-comparative research; and theoretical research. It clarifies conceptual and intellectual traditions in research, and puts researchers firmly in the investigative saddle - able to choose, justify, and explain the intellectual framework and personal rationale of their research.
