**Michael G. Maxfield, Earl R. Babbie : Research Methods for Criminal Justice and Criminology** before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Methods for Criminal Justice and Criminology:

0 of 0 people found the following review helpful. False advertisementBy TIFFANY SMALLSThis book definitely comes in handy and it was a good price considering how expensive it is on other sites and the school. However, it is far from new. There's writing (notes) on the last few pages of the book that you cannot miss. Things are highlighted in the book and from the first view of the book the cover clearly shows that IT IS NOT NEW OR EVEN FAIRLY NEW! If it is not new it goes under the used books list period. I wiped the cover and the top and bottom part of the book off with sanitizing cloths because I do not buy used books and I am very picky about touching them when you can tell first hand that it has been used.1 of 1 people found the following review helpful. Does A Good JobBy Danny YuFace it: most college students do not read every single word and page in a textbook.With such a complex class, I would say this textbook did a fairly good job in providing brief but understandable material. Granted, it might not be the best of

methods, but it allows the reader to skim through some parts and read the ever so useful "Main Points" at the end of every chapter. Then, for a fast paced student like me with so many classes, I could just read back on the pages I NEED to read to understand certain concepts. Have fun researching!

You'll feel like an actual participant in the research process with this bestseller's unique over-the-shoulder vantage point and practical, example-filled discussions drawn from various facets of criminal justice research. Prominent criminologist Michael G. Maxfield and acclaimed research methods author Earl Babbie guide you in effectively applying research methods to the study of crime and criminal justice policy. Conversational and learner-friendly, **RESEARCH METHODS FOR CRIMINAL JUSTICE AND CRIMINOLOGY** includes many study tools, examples, and exercises to help you do well on exams and excel in this course.

About the Author Michael G. Maxfield is Professor of Criminal Justice at John Jay College, City University of New York. He is the author of numerous articles and books on a variety of topics, including victimization, policing, homicide, community corrections, and long-term consequences of child abuse and neglect. Working with students and colleagues at the John Jay College Research and Evaluation Center, Professor Maxfield developed the evidence generation approach to applied justice research. He is editor of the *Journal of Research in Crime and Delinquency*. Earl R. Babbie graduated from Harvard University before enlisting in the U.S. Marine Corps. He received his Ph.D. from the University of California, Berkeley, and began teaching shortly thereafter. Credited with defining research methods for the social sciences, Dr. Babbie has written several texts, including the bestselling **THE PRACTICE OF SOCIAL RESEARCH**.
